

# QUALITY POLICY

**KTL Marine Services** is committed to deliver the highest quality standard for all our technical services on Inspection, Certification, Re-certification of various Lifting Slings, Equipments and Accessories, Spooling services and Rental services.

To achieve this, Top Management undertakes to:

- Comply with the applicable statutory and regulatory requirements wherever we operate.
- Continually strive to improve the quality management system by identifying potential risk factors that may affect our services; and by addressing those factors with appropriate remedial actions.
- Strengthen our team of technical inspectors and riggers by providing trainings and sharing knowledge that will make them competitive in the field of our business.

We shall strive to perform and deliver our services in conformity and compliance to all applicable regulations and industry standards, exemplary customer service and on-time delivery in every single transaction with the ultimate aim of providing total customer satisfaction.

This policy shall be communicated to all employees and available to relevant interested parties upon reasonable request.
